Riley Grannan at Louisville.

The famous boy plunger, Riley Grannan, who a few years ago startled and dazzled the racing world by his phenomenal success in betting on the different races until he was rated up into the hundreds of thousands of dollars, can be found at the Louisville meet, in charge of Willie Applegate's block. Riley is an old Paris boy whose many friends hope that fortune's smile may yet enable him to retrieve his past success.

Letter From Bitumen Co.

INDIANAPOLIS, May 9, 1905.

WOODS BROS., Paris, Ky.

GENTLEMEN:—We are preparing our cement to ship to Paris to begin the repairs on Main street. Will you please advise by return mail whether you are working the city quarry, and whether we can get hard lime stone in size one inch down. We would thank you to give us this information by return mail. It is our intention to take up a large part of the street so that we shall need considerable stone.

Yours very truly,

NATIONAL BITUMEN CO.

Card of Thanks.

The young ladies of the Junior Hospital Club desire to express their thanks to the merchants for their liberal donations and to the people for their generous and hearty patronage.

A Beautiful Exhibition.

Howell's troupe of glass workers gave their first exhibition last night in the vacant store room opposite the court house. Quite a large crowd attended and no one was disappointed, but on the contrary, everyone was surprised and delighted with the elegance and novelty of the exhibition. An entertainment of this kind is a decided novelty in Paris, as no completely equipped company has ever visited the city before. Howell's glass workers are certainly artists at their calling and will no doubt be liberally patronized during their stay here. The souvenirs that are given to the visitors are real work, of art, and are appreciated, especially by the ladies and children.

Closing Exercises June 1st.

The closing exercises of the Paris High School will take place at the Grand Opera House, Thursday evening, June 1st. Four young ladies will graduate and receive their diplomas. They are Misses Ethel Thomson, Henrietta Oberdorfer, Louise Grinnan and Mattie Stivers. Miss Stivers receives the salutatory and Miss Thomson the valedictory addresses. The Rev. I. J. Spencer, of Lexington, and Jas. H. Fuqua, of Frankfort, State Superintendent of Public Instruction, will speak to the graduates. Prof. Frank Bristow, of Covington, supervisor of music of the Covington Public Schools, will render a number of his best musical selections as follows: Song of Peter Bird, by Henry M. Stanton, Kentucky's greatest poet; Life's Lesson, and in Kentucky, by Judge James H. Mulligan. Miss Julia O'Brien, in charge of two choruses from the school, will be one of the attractive and appreciative features of the closing exercises, rendering the two popular songs entitled, Coon, Coon, and Let the Hills and Dales Resound.

There will be four undergraduates—Ben Ingels, Leo Hayden, Jason Redmon and J. W. Walker.

When their case was called yesterday they waived examination and were held to Circuit Court.

Paris, Ky., Tuesday, May 16, 1905.

Now that we have a new public library, a new court house, one of the most magnificent temples of justice in the State, public schools that are amply sufficient to accommodate the school children, and to instruct them by competent teachers of the higher branches of education, we should, one and all, feel that something is lacking, something necessary and needed to make our own an ideal city, and that is a hospital. It is needed and badly needed. We need it from a humane standpoint and we need it from a financial standpoint. Nothing adds so much to the importance of any city as a hospital. The ladies, who have done so much to make our city attractive and contributed so much to its educational advantages, have taken hold of the proposition to erect a hospital and are meeting with the most flattering success.

The Junior Hospital Club has undertaken to raise sufficient funds with which to buy the lot and their efforts have so far exceeded their expectations. They have by no means, however, secured the necessary amount and will continue, expecting the same hearty and generous support that has so far rewarded their efforts. But while the ladies, both young and old, are working so energetically to make the hospital movement a success, what are we men folks doing? Can we not get together, organize a club, hold a few receptions, give a few smokers, hold a big pic-nic out some where on the trolley line, and pledge the club to raise a sum sufficient to furnish the building with beds, bedding and all other necessary furniture needed in a first-class hospital? Who will take the initiative?

THE innocence or guilt of Nan Patterson is now of but little moment. The great majority of the people like the majority of the three juries that tried her, believe in her absolute innocence. The fact is that Nan is released on motion of the District Attorney and the release is effective, notwithstanding Mr. Jerome took advantage of the occasion to express his opinion of Nan Patterson, of the juries which refused to convict her and of the press which had scored him for his persistent fight against a woman whom he never could convict, and ought to have known the fact if he did not. And now that Nan is at liberty, let her remember the pathos and the depth of the affection of her father, who stood by her throughout, refusing to believe in the guilt of his daughter. Let her remember that, and also remember that the sympathy which went out to her from men and women will better be conserved by quiet on her part and not by the lecture platform nor by the writing of her reminiscences, on which, according to her counsel—Mr. Levy—she intends to begin before the coming of June.

JUDGE HARGIS is a power in local politics in his county and district. He holds absolute sway. His demands must be obeyed and are obeyed implicitly. He is the highest type of a machine made politician. His methods are machine methods. His services are too valuable. His conviction of the crime of which he stands indicted before the bar of public opinion would remove the most important and valuable generalissimo from the arena of machine politics. The country was dumfounded when he was taken to a fashionable cafe and dined while still a prisoner and his guilt or innocence still undetermined by a jury of his peers. He still remains as a member of the State Central Committee. Can the Democratic party afford to remain silent; can they afford to ignore public opinion? We think not! Demand his resignation; smash the political machine of which he is a central figure; smash the Frankfort ring, the triumvirate of political highwaymen, the Beckham-Hager-Haley combination.

THE primary election to nominate a candidate for State Senator will be held Thursday. There are only two candidates, H. P. Thomson and Chas. B. Ecton, both of Clark county.

Both candidates are outspoken in their support for Hons. J. C. S. Blackburn and James B. McCreary to succeed themselves in the United States Senate. Mr. Thompson is also making the fight as an anti-machine man. It is only a matter of choice as to which of these gentlemen should be selected as our standard bearer. Every Democrat in the county is entitled to an expression of his choice, and the primary election affords that opportunity. We therefore urge upon all Democrats in the county to attend the primary. Your doing so is an evidence of your loyalty to the party and principles it represents. A large vote polled is an evidence of the enthusiasm of Bourbon Democrats and shows that the people are alive to the great cardinal principles of Democracy.

The following letter is self explanatory:

THOMSON, KY., May 15, 1905. JAMES O'BRIEN, Esq., Paris, Ky.,

DEAR SIR:—Upon my arrival home, find that since their failure to get Cockrel to make the race, Allie Young, Henry Prewitt and the other friends of the administration have made some arrangement with Ecton and have gone to work for him. Ecton himself told this and also stated that money would be put in the race in his interest, but did not say how much. I wish you would notify the Blackburn men in Bourbon County at once so that they may understand the situation and go to work. Yours very truly,

H. P. THOMSON.

Thought It No Harm.

Mr. J. W. Huffman, of the Paris Gas Company, accompanied by Joe Claxton, colored, an employee of the same company, went out for a fish Friday just after the heavy downpour of rain.

The waters were very high and muddy so they concluded to use a drag-out in their efforts to land a goodly mess of the fluky tribe.

Just as this part of the program was being carried out, Game Warden Willis Goodman happened along and placing both men under arrest, escorted them with their alleged improper fishing outfit, before Judge Smith. His Honor set their trial for Monday morning at 10 o'clock and released both men on their own recognisance.

SPRING CATARRH.

Changeable Weather Causes Disease—Breath Hyomei and Cure Catarrh.

The changeable weather of spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures without stomach dosing, should be used in every home.

For more than a century physicians have been sending persons suffering from catarrh to Egypt, Colorado or Australia, where the pure, healing air would cure the disease. For one person who could take this trip, thousands have been compelled to stay at home and continue their daily toil. To these sufferers who could not change their climatic conditions, we offer Hyomei, a method by which pure air impregnated with Nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing can possibly do. It gives immediate relief and makes lasting cures.

The complete outfit, consisting of the inhaler, medicine dropper, and bottle of Hyomei, costs only one dollar, and extra bottles of Hyomei, if needed can be procured for fifty cents.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which Clarke & Co. sell it, and agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction.

LEXINGTON, KENTUCKY.

A CARD.

WINCHESTER, KY., May 15, 1905.
TO THE VOTERS OF THE 28TH SENATORIAL DISTRICT:

My attention has been called to an editorial in the Paris Democrat appearing in the issue of that paper for Saturday, May 13th, 1905. I am satisfied that the editor of that paper feels no malice towards me; that he would not intentionally misrepresent or in any way wrong me, but it is clear that either by a misapprehension of the facts or by some sort of hypnotic influence, he has considered proper the publication in his paper of an article that does me gross injustice.

May I have the indulgence of my friends, and the public generally, while I quote from the article referred to? The matter comes as a boom-erang from the camp of my distinguished and honorable opponent, just a few hours before the battle of the ballots, and I am particularly anxious to see that the ingenious instrument wheels its flight in the proper direction. I am not aware of any scars upon my political record, and I am proud to welcome with open heart and hands any criticism not tainted by the machinations of those who, by innuendo and misrepresentation, seek to place me in a false light before the people whose suffrage I am seeking.

In part the article goes on to say: "Almost immediately after the announcement of his candidacy the Hon. H. P. Thompson made known his opposition to the Beckham-Hager-Haley Machine; * * * and said that if elected he would vote for United States Senators Blackburn and McCreary to succeed themselves."

It is doubtful whether at the time Mr. Thompson announced his candidacy that he had in mind any thought of the so-called "machine." Certainly Mr. Thomson, in his card announcing his candidacy, said nothing about a "machine," nor did he say whom, in the event of his election, he would support for United States Senator, yet the editor of the Paris Democrat, inadvertently, no doubt, goes on with the misleading statement which places Mr. Thomson in the attitude of saying in the beginning of the campaign in March, 1904, that

"If elected he would vote for United States Senators Blackburn and McCreary to succeed themselves,"

when the fact is, as the editor of the Paris Democrat has every opportunity to know, that Mr. Thomson did not declare his preference for United States Senator until more than a year afterward, (March 24, 1905).

On the 19th day of March, 1904, the Paris Democrat published the following extract from the Mr. Sterling Sentinel-Democrat:

"Mr. C. B. Ecton, of Clark County, prospective candidate for the Democratic nomination for State Senator of this district was here Monday and called at this office and said: 'You have called on the candidates for State Senator to announce their preference for United States Senator. This is as it should be; the people have a right to know, and while I am only a prospective candidate, I am here to say that if nominated and elected to the next State Senate I shall cast my vote for the Hon. J. C. S. Blackburn for United States Senator to succeed himself, and I request you to make this statement in such plain language that it cannot be misunderstood. I fought by Joe Blackburn's side in the Confederate Army, and have been for him in all his political races since, and am for him yet. I have no secrets from the people whose suffrage I may seek.'"

I made the same statement, as I had a right to do, with reference to Senator McCreary. In the very outset I took pains to acquaint the people with my position on all questions involved in the race and under the banner that I hoisted then and have since carried, I rest the fate of my political aspirations, ready and willing to abide the decree of the party for which I have steadfastly stood always and everywhere.

One more reference, please, to the misleading editorial in the Paris Democrat. In conclusion the editor says:

"We have nothing against Mr. Ecton, in fact, we have found him a pleasant, affable gentleman, but we believe that the people of Bourbon county owe it to themselves and to their own self-respect to defeat the schemes of Beckham and his allies and for that reason they should cast their votes for that candidate for the State Senate who, at the very beginning of his campaign boldly, openly and without solicitation announced his enmity to the machine and made known his position on the one important issue now before the people."

And echo answers "who?" I appreciate the bunch of roses that the editor hands out to me, but justice to myself and to my friends impels me to resent the cowardly and unwarranted

insinuation couched in the beautiful bouquet.

Who, indeed, "at the very beginning of his campaign boldly, openly and without solicitation announced his enmity to the machine and made known his position on the one important issue before the people?" Certainly not Mr. Thomson. His card announcing his position as to representation in the United States Senate was first published in the Winchester Democrat, issue of March 24, 1905, more than a year after the opening of the campaign, and his "violent" opposition to the "machine" developed still later, having been mentioned, for the first time during the campaign, by the Paris Democrat on last Saturday, just four days preceding the primary.

I submit to the Democrats of this district that more than fourteen months ago, even before I had fully determined to enter this race I announced my allegiance to Senator J. C. S. Blackburn to succeed himself as U. S. Senator. When the United States Senatorial race to select a successor to Senator J. B. McCreary was later broached I unhesitatingly announced myself for Senator McCreary to succeed himself. I have prosecuted my campaign along these lines, being careful to explain fully my position on all other questions involved. I have no quarrel with any so-called "machine"—indeed I am not aware that there is in existence such a "machine" as the Paris Democrat is pleased to designate as the "Beckham-Hager-Haley Machine," nor have I had the misfortune to come in contact with any of "the gang of political freebooters" that seems to be a creation of the vivid imagination of the editor of the Paris Democrat.

Machine methods in politics are as odious to me now as were the methods pursued in this State in 1866, when Federal troops, under command of Gen. John M. Palmer, guarded the polls and denied Democrats the right to vote.

Mr. Thomson does not deny that in 1896 he voted for the same Gen. John M. Palmer against William Jennings Bryan, the regular Democratic nominee for President of the United States.

Col. H. P. Thomson For State Senator.

[From Winchester Democrat.]

"In this issue Col. H. P. Thomson announces his candidacy for Senator from this, the 28th Senatorial District, consisting of Montgomery, Bourbon and Clark counties. His candidacy is subject to the action of the Democratic party in primary or convention as the governing authority may determine.

He is a native of Clark county, being a member of one of her oldest families. When a young man he evinced a liking for politics, not for political preferment himself, but aligned himself with the Democratic party, rendering all services to it that seemed to be necessary. In the seventies he was selected by the Democrat of this county as county chairman and continued to succeed himself in that position for eight or ten years, and was then elected a member of the State Central Committee, in which capacity he served for about the same length of time. We recount that at the time he was elected chairman of the county committee of Clark county, the Democrats had a bare majority—the county was considered doubtful. Under his management the majority of the Democratic party increased in the county until it reached almost its present magnificent majority which in the last election was 682. The Democratic party was quick to reward his earnest service and made him a member of the State Central Committee where he and those associated with him upon that committee managed the party's affairs and gave us the old time victories of which we hear spoken so often now. These were good old Democratic days before there were any dissensions or discord in the party, and we now believe these days are returning and that in the immediate future the Democrats of the nation will come into possession of their own with a majority of which they will be proud. During the time of Col. Thomson's long service in the party as county chairman and State committeeman he was often called upon by his party to become a candidate for office, but during that period he was engaged in business of great importance to himself and was willing and anxious to render an unselfish service to his party, and therefore declined. During that period he contributed more time and money to the advancement and upbuilding of the party than any other Democrat in Clark county. He was one of the few original Goebel men in the district, and was his earnest, loyal supporter and friend.

Col. Thomson has always resided in Clark county and has been identified with its business interest for a good many years, although he is not an old man. He is now in the very prime of life. He has been a farmer all his life and has led that interest in its progressive movements for twenty years or more. He introduced into this section the cultivation of Burley tobacco, which has grown to be one of the chief industries. He produced the first crop in 1880 that was ever grown in Clark county or in this district. He bought and distributed seed throughout this section free of charge to the farmers in order to introduce this staple generally among the people.

After the introduction of tobacco in this section he became a dealer in leaf tobacco and continued to purchase and market more of that product than any other dealer in the State of Kentucky, and paid out large sums of money throughout the district, until the trust was formed which cut out competition in the market for leaf tobacco.

In many ways Col. Thomson has shown his enterprise in promoting various interests in the country and among the farmers. He has been the largest grower of tobacco during the last twenty years and has employed more labor on his farm than any other farmer in the county.

Col. Thomson was a resident of Winchester for about five years, and while here showed the same spirit of enterprise as a citizen of the city that he displayed in the country. He led the fight in two or three elections for water works, he purchased and subdivided a large addition to the city of Winchester, which has become one of the most attractive parts of the city. He contributed more than three times as much money as any one man to the building of the street railway, and promoted and helped to construct the first electric light plant established in Winchester.

If the Democrats of this district should nominate Col. Thomson he will make an active, vigorous campaign, will infuse life and energy into the race and will be elected by an increased majority. He will make a typical, progressive, intelligent Senator, who will be true to the interests of this section and the Democratic party in the Senate of our State. The primary election for State Senator will take place Thursday, May 18th. Polls open from 6 a. m. to 4 p. m.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by Oberdorfer, the druggist, price 50c.

—The 40th convention of the Kentucky Sunday School Association meets at Somerset, June 7, 8, 9, next. Every Sunday School in the State should be represented. Three of the choicest workers of America, besides the choicest speakers of our own State, will be on the program. The people of Somerset are as hospitable a people as can be found in the State, but naturally their capacity to entertain is limited, and in order that no one may be shut out who desires to go, our State Executive Committee will provide entertainment at hotels and boarding houses for all over the number the people can entertain in their homes. It therefore becomes necessary for the State Committee to charge each delegate asking for entertainment \$1. This is a small amount and no delegate should feel it a hardship to pay it. If it should not be needed for entertainment it will go into the State treasury.

A special train will leave Louisville at 10 a. m., June 7, and arrive at Somerset 4:10 p. m. For particulars, consult either Rev. B. F. Jones, Little Rock, County President, or Dr. E. L. Stevens, Paris, County Secretary.

—The Kentucky Endeavor Union will hold a State rally at Lexington, Friday, May 19th. An interesting program has been arranged and it will be an enjoyable occasion. Entertainment has been provided for all visiting endeavors, and every Endeavor is earnestly requested to attend this rally. Endeavors from all parts of the State will be there. Any one expecting to go will send their name to Mrs. Chas. F. Evans, 160 N. Upper street, Lexington, Ky., or Houston Rion, Paris, Ky., so that homes may be secured in advance.

This rally is to work up an interest in the Baltimore convention in July, and to get as many delegates as possible to go to Baltimore.

—The Rev. W. N. Briney, of Warrensburg, Mo., has accepted the call to the Broadway Christian Church, of Louisville, and will take charge the first of July. He is a graduate of Kentucky University, and the Bible College of that institution. After he was graduated he preached at Leesburg and Mt. Carmel, Ky., until he was called to Paris, Mo., where he labored five years. Last September he accepted a call to Warrensburg, where he has filled the pulpit of the Christian Church with great success.

—Rev. F. W. Eberhardt, of Liberty, Mo., will preach at the Baptist church, this city, Sunday morning and night.

MARKET LETTER.

(Reported by Chrystal & Co., Wilson Building, Paris, Ky.)

Monday, May 15th, 1905.

CHICAGO GRAIN.

Wheat—The extraordinary strength which advanced July Wheat over 2 cents a bushel Saturday was again in evidence this morning and although the opening bulge followed by liberal offerings which resulted in a cent decline from the extreme top point, still there was lots of buying and fear of a late harvest, and small deliveries of the July, with the crop disappearing rapidly, kept the market strong. The visible supply decreased over 2 millions and cables were up a penny a bushel at the opening but closed at some concessions.

We believe this sharp advance of 5 cents a bushel in a week has reduced the large short interests and on any favorable weather we look for fresh lines to be put out and wheat a sale on bulges.

Prefer selling September option. Corn—The continued wet weather was a bull feature in corn and to-day it resisted all selling efforts making a net gain of ¼ cent on the day.

Provisions—Provisions were strong considering the liberal receipts and the lower prices for hogs.

We would buy on all reactions. Following is the range of prices:

Call For Father.

Every married man in Lawrenceburg will appreciate the timely expressed sentiments of the following prose poem:

"Father, dear father, come home with me now, for ma has some carpets to beat; she has got all the furniture out in the yard from the front porch clear down to the street. The stove must come down and be put in the shed, and the yard must be cleaned of dry grass, for it's time to clean house and the devil's to pay and the front window needs a new glass. Father, dear father, come home with me now, and bring some bologna and cheese; it's most twelve o'clock and there is nothing to eat, I'm so hungry I'm weak in the knees. All the dinner we'll have will be scraps and such, and we'll have to eat standing up, too, for the table and chairs are out in the yard, oh, I wish spring house cleaning was through. Father, dear father, come home with me now, for ma is as mad as a Turk; she says you are a lazy old thing and she proposes to put you to work; there's painting to do and paper to hang, and windows and casings to scrub, for its house cleaning time, and you've got to come home and revel in subs and cold grub."—Anderson News.

THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitutes on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness?

Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators?

August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints.
